

Beach Cottages

Small-scaled residential architecture constructed by the water are showcased in this beautiful, highly illustrated, meticulously documented book, devoted to some of the most innovative waterfront cottages of recent years. All of the houses, cottages and cabins included in this book are located on coastal property and all combine a sense of the elements with that of pure delight. Through more than 300 colour photographs and black and white architectural plans and details, this book shows a unique vision of waterfront living from both the interior and exterior. Architects who have featured work include Jarmond/Vigsnaes (Norway), Sean Godsell (USA), Fearon Hay (New Zealand), Clinton Murrin (Australia), Matthias Klotz (Chile), Architectus (New Zealand), and Smith + RDV Architects (USA).
