

2000 Mosbys Assess Test: A Practical Exam for Rn Licensure

Prepares students for the licensure exam by assessing knowledge and abilities before taking the Boards. The text contains 300 questions that reflect the stand-alone format and distribution of content according to the 1998 NCLEX-RN test plan. A computer evaluation analyzes individual strengths and weaknesses for nursing process, client needs, clinical area and focus of care. Each student receives a list of questions answered incorrectly as well as a booklet containing classification, correct answers and rationales for all options. The institutional computer report summarizes group performance in the same categories as the individual profile and assists instructors in evaluating the groups strengths and weaknesses.
