

Directory of American Medical Education 2013 (Directory of American Medical Education (Aamc))

Updated every year, the Directory of American Medical Education lists administrators and department and division chairs for all the accredited medical schools in the United States, Canada, and Puerto Rico. In addition to the faculty listings, each school entry contains enrollment data, type of support, clinical facilities, and a brief historical statement. The beginning of the directory describes AAMC activities and efforts in research, communications, education, and service to its members. Officers and members of the various AAMC organizations are also listed, including member academic societies and teaching hospitals.
