

## Houses & Apartments Under 1000sqft (500 Tricks)

The micro-home is the kind of residence that is witnessing the steepest growth in 21st-century cities and synthesises the best traits of today's architecture: functionality and efficiency. This book contains home designs measuring 20 to 89 m<sup>2</sup> (215 to 958 sq ft), making it a visual guide to the most noteworthy compact homes on the international scene. Due to the physical and budgetary limitations in this kind of home, one of the most important considerations is furniture, so a brief selection of furnishings has been included to complete this book. A showcase of the best in contemporary compact residential architecture.
