

## AARPs Drive Smart

Driving isn't what it used to be. Today you're facing new rules of the road, distracted drivers, and updated technologies—entertainment and GPS navigation systems, ringing cell phones and beeping texts that demand you take your eyes from the road, despite the hazards. That's why AARP Driver Safety, the program that offers the nation's first and largest driver improvement course for drivers age 50 and older, offers Drive Smart: How to Stay Safe and Save Money. This e-book provides expert advice on today's traffic rules, driving conditions, vehicle technologies, and the dangers presented by other drivers. You'll find more than 125 tips to refresh your knowledge of the rules of the road, recommendations to help you save money on auto insurance, fuel, and other driving-related expenses, strategies to help you avoid distractions, drive safely in inclement weather, and recognize when it may be time for a loved one to stop driving.

Drive Smart: How to Stay Safe and Save Money provides valuable information to help you keep safe behind the wheel. And if you suspect your loved one's driving skills could use a tune-up, then pass this e-book to them, too.

**ABOUT THE AUTHOR** AARP is a nonprofit, nonpartisan organization, with a membership of more than 37 million, that helps people turn their goals and dreams into real possibilities, strengthens communities and fights for the issues that matter most to families such as healthcare, employment security and retirement planning.
