Our philosophy is that if its going to be in electronic format, it ought to include and utilize all the features that an electronic format should provide. One such feature is cross-reference linking. Many other scripture collections dont have links where there ought to be. When studying in a hardcopy version of the scriptures and coming to footnote references, you must take the time to flip through pages to go to the footnote reference. Sometimes this even requires opening a separate book. One of the best features of this collection is the extensive cross-reference linking throughout the entire library. This collection is fully equipped with the complete Scripture footnotes, Topical Guide, Bible Dictionary, Index, Guide to the Scriptures, and more. Unlike many other collections, as you study in this edition, you will see hundreds of thousands of links through out the Scriptures and other works. Simply select the links to follow to their respective locations whether it be a footnote to the Topical Guide or to another Scripture references. Also, the scripture references that appear in the other works (manuals, commentaries,etc.), are linked back to the scriptures. See also topics in the Topical Guide, Bible Dictionary, Index, Guide to the Scriptures, True to the Faith and other such reference works are linked to there respective

locations.
