

## ANIMAL FARM (Timeless Literature Collection)

Animal Farm is an allegorical and dystopian novel, published in 1945. According to Orwell, the book reflects events leading up to the Russian Revolution of 1917 and then on into the Stalin era in the Soviet Union. He does so through a satire about animals on a farm planning a revolution against their exploiters: Human Beings. According to Orwell, this was the first book in which he had tried, with full consciousness of what he was doing, to fuse political purpose and artistic purpose into one whole. It is considered among the 100 most influential novels of the 20th century, a true literature classic for all times.
