

US Army, Technical Manual, TM 55-1680-317-23&P, AVIATION UNIT AND AVIATION INTERMEDIATE MAINTENANCE MANUAL WITH REPAIR PARTS AND SPECIAL TOOLS LIST FOR ARMY AIRCRAFT SURVIVAL KITS

US Army, Technical Manual, TM 55-1680-317-23&P, AVIATION UNIT AND AVIATION INTERMEDIATE MAINTENANCE MANUAL WITH REPAIR PARTS AND SPECIAL TOOLS LIST FOR ARMY AIRCRAFT SURVIVAL KITS The Individual Hot Climate, Cold Climate, and Overwater Survival Kits. The individual hot climate, cold climate, and overwater survival kits (figure 1-1) are complete survival packages which are carried aboard all Army aircraft, except OV-1 aircraft, according to the survival environment along the routes of flight. Components of each of the survival kits are contained within a canvas or nylon case which is equipped with a web carrying handle and two parachute attaching straps. The straps permit the applicable kit to be connected to an emergency-type personnel parachute harness in the event of emergency bailout during flight. The contents of each individual survival kit shall vary according to the kit type as outlined in chapter 2. However, of the three kit types, the overwater kit is the only kit which contains one-man life raft and a carbon dioxide cylinder for raft inflation.
