

Book of Life: A Compendium of the Best Autobiographical and Memoir Writing

From childhood through to adulthood - if not necessarily maturity - The Book of Life offers the literary journal of a lifetime, in the company of the most fascinating and talented figures in history. From Alan Bennetts wartime childhood in Yorkshire to Mahatma Gandhis experiment with cigarettes; Katherine Hepburn on her first acting job aged 21 and Primo Levi on being captured by Fascist militia at the same age; Darwin on his lifelong love - his work - and Nelson Mandela on his release from prison aged 71 ...life and living in all its manifold glories is represented. With insights that encompass generations and continents, this is a uniquely enjoyable immersion in some of the worlds best, and most personal, writing.
