

Charlotte and the Alien Ambassador (Intergalactic Brides 4)

Born into a world of silence, Charlotte has always been made to feel inferior to her sister in every way. When her father demands she take Charity's place in a bride exchange on another world, Charlotte decides to embrace her future and hope for the best. She knows it's her last chance to find happiness, and she'll do anything to grab it with both hands. Borgoz agreed to see the young girl married, but the ethereal woman who steps off the shuttle holds him spellbound. She's everything he's ever wanted, and the one thing he can never have. His job as Chief Councilor of his world is too demanding to give him time for a family of his own but that doesn't stop him from wanting her. A moment of passion flares bright between them, and unbeknownst to Borgoz, has lasting consequences. When Charlotte returns to her world, he's devastated and realizes he's lost the one thing he wants most. Will he buck the rules of his planet and go after Charlotte? Or will he live with the heartache he feels as the memory of her touch haunts him?
