

Budayeen Nights

Long identified as a science fiction writer, except in his own eyes, George Alec Effinger had some of his biggest critical and commercial success with a series even he recognized and characterized as SF. Set in the marvelously realized, imaginary Muslim city of Budayeen, the three novels, *When Gravity Fails*, *A Fire in the Sun* and *The Exile Kiss* garnered rave reviews, award nominations and a wide readership. In addition, Effinger came to be recognized as one of the foundational writers of cyberpunk. Although the novels are perhaps how Budayeen and their hero, Marid Audran, are best known, there are a handful of shorter pieces that add to the vividly drawn and deeply authentic picture of an imagined world and seven short stories, the first part of an uncompleted novel and a story fragment add to the mental images of this exotic and yet somehow completely familiar city and world that Effinger created. This book was originally published by Golden Gryphon Press and comes with a Foreword and story notes by Effinger's widow, Barbara Hambly. The lead story in this collection, *Schrodinger's Kitten*, won the Hugo, Nebula and Seiun Awards.
