

Checkpoint Next Generation Security Administration

Unparalleled security management that IT professionals have been waiting for. Check Point Software Technologies is the worldwide leader in securing the Internet. The company's Secure Virtual Network (SVN) architecture provides the infrastructure that enables secure and reliable Internet communications. CheckPoint recently announced a ground-breaking user interface that meets the computer industry's Internet security requirements. The Next Generation User Interface is easy to use and offers unparalleled security management capabilities by creating a visual picture of security operations. CheckPoint Next Generation Security Administration will be a comprehensive reference to CheckPoint's newest suite of products and will contain coverage of: Next Generation User Interface, Next Generation Management, Next Generation Performance, Next Generation VPN Clients, and Next Generation Systems. CheckPoint are a company to watch, they have captured over 50% of the VPN market and over 40% of the firewall market according to IDC Research. Over 29,000 IT professionals are CheckPoint Certified. This is the first book to cover all components of CheckPoint's new suite of market-leading security products - it will be in demand! Understand NGX R65 Operational Changes: SVN Architecture, New VPN-1 Features, Additional Features, VPN-1 Power VSX Deploy SmartClients and SmartManagement: SmartDashboard, SmartMap, SmartView Tracker, SmartView Monitor, SmartUpdate, SmartLSM, Secure Client Packaging Tool, Management Plug-Ins, Check Point Configuration/cpconfig Drive the Management Portal: A Tour of the Dashboard, What's New in SmartDashboard NGX, Your First Security Policy, Other Useful Controls on the Dashboard, Managing Connectra and
