

Computational Intelligence in Bioinformatics (Studies in Computational Intelligence)

Bioinformatics involve the creation and advancement of algorithms using techniques including computational intelligence, applied mathematics and statistics, informatics, and biochemistry to solve biological problems usually on the molecular level. This book deals with the application of computational intelligence in bioinformatics. Addressing the various issues of bioinformatics using different computational intelligence approaches is the novelty of this edited volume.

Computational Intelligence and Bioinformatics and - IEEE Xplore Advances in Computational Intelligence and Bioinformatics (Studies in Computational Intelligence). Authors: John A. Rose Mircea Gh. Negoita. Publication:.
