

## Creating the New Soviet Woman: Womens Magazines as Engineers of Female Identity, 1922-53 (Studies in Russian and East European History and Society)

This book explores the Soviet attempt to propagandise the new Soviet woman through the magazines *Rabotnitsa* and *Krestyanka* from the 1920s to the end of the Stalin era. Balancing work and family did not prove easy in a climate of shifting economic and demographic priorities, and the book charts the periodic changes made to the model.
