

Color in Your Home (Good Ideas Series)

Part of the Good Ideas series, Color in Your Home focuses on how the usage of different colors can affect people's perception of a space. Color not only affects the way the space itself appears, but also affects the relationships between a space and the objects within it. Reaching beyond simple color changes through paint choices, this volume explains how the color of furnishings, accessories, and other details can redefine a space. Covering all the colors in the rainbow in separate chapters, as well as special sections on blacks, grays, and mixing colors, this volume features hundreds of photographs that will inspire you to re-imagine your home, in brilliant color. The Good Ideas series provide homeowners with hundreds of inspirational design ideas to incorporate into their own homes. Each volume focuses on a specific aspect of home design, and features exquisite full-color photography of examples from around the world. Whether your design plans are modest or ambitious, you'll find a valuable resource and a veritable creative workshop between the covers of these invaluable references.
