

DNA Methylation Microarrays: Experimental Design and Statistical Analysis (Chapman & Hall/CRC Biostatistics Series)

Providing an interface between dry-bench bioinformaticians and wet-lab biologists, DNA Methylation Microarrays: Experimental Design and Statistical Analysis presents the statistical methods and tools to analyze high-throughput epigenomic data, in particular, DNA methylation microarray data. Since these microarrays share the same underlying principles as gene expression microarrays, many of the analyses in the text also apply to microarray-based gene expression and histone modification (ChIP-on-chip) studies. After introducing basic statistics, the book describes wet-bench technologies that produce the data for analysis and explains how to preprocess the data to remove systematic artifacts resulting from measurement imperfections. It then explores differential methylation and genomic tiling arrays. Focusing on exploratory data analysis, the next several chapters show how cluster and network analyses can link the functions and roles of unannotated DNA elements with known ones. The book concludes by surveying the open source software (R and Bioconductor), public databases, and other online resources available for microarray research. Requiring only limited knowledge of statistics and programming, this book helps readers gain a solid understanding of the methodological foundations of DNA microarray analysis.

Adaptive Design Methods in Clinical Trials, Second Edition - Google Books Result DNA Methylation Microarrays: Experimental Design and Statistical Analysis (e-Book) book cover 2008 Chapman and Hall/CRC. 256 pages 102 B/W Illus. **DNA Methylation Microarrays: Experimental Design and Statistical** Find great deals for Chapman and Hall/CRC Biostatistics: DNA Methylation Microarrays : Experimental Design and Statistical Analysis by Sun-Chong Wang and **Bayesian Methods in Health Economics - Google Books Result** Adaptive Design Methods in Clinical Trials, Second Edition Shein-Chung Chow and Mark Chang Kapadia DNA Methylation Microarrays: Experimental Design and Statistical Analysis Sun-Chong Chapman. & Hall/CRC.
