

Rosie Learns About the Solar System: An Easy Introduction to Astronomy

In this book, Rosie and her family learn about the solar system. Rosie is full of questions about the world around her. Dad uses every-day examples to teach her about science. You're invited to come along and learn too. This book contains: 19 short stories explaining topics in astronomy Puzzle activities for each lesson Images and diagrams Topics include: The moon, the sun, constellations, galaxies, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Asteroids, Meteors and Comets. Great for summer skills or homeschool Learn about how Saturn could float at the summer pool party. Experience Venus greenhouse effect as the kids pick tomatoes. Observe phases of the moon as they walk the dog. Watch constellations on a family campout. Plus many more.
