

Rock Reject

Winner of the inaugural Beacon Award for Social Justice Literature. Wracked with guilt and self-loathing after the death of his wife, Peter abandons his life in Toronto for one of exile and desolation in rock reject, a ghastly mountain-top asbestos mine in northern British Columbia. As Peter adapts to his dangerous new surroundings, he witnesses the devastating effects of mining on the health of his fellow miners, the environment and the nearby Aboriginal community. Drawn into the local miners union and safety committee, Peter's confrontations with company officials give him the strength to come to terms with the tragic consequences of his self-centered behaviour, which led to his wife's death. Set in the 1970s at a time when the dangers of asbestos first began to surface, *Rock Reject* is a story about accepting responsibility for one's actions, corporate irresponsibility and the blind pursuit of profit at the expense of physical and environmental health.
