

Historic Churches, Synagogues & Spiritual Places of Eastern Maine

Beginning with the Native American tribes of the Wabanaki Alliance, the people of Maine have created religious institutions and spiritual traditions that have endured for hundreds of years. After the arrival of Europeans, Christianity and Judaism began to spread, and dozens of congregations were formed. Their history lives not only in the spectacular structures built to honor the deities but also in the people who came together to celebrate, mourn and worship. From the earliest Native American peoples to the congregations of today, local authors Jim and Jane Diggins Harnedy document the religious history of Acadia, Greater Bangor and Way Down East.
