

The Wonder

An 11-year-old girl stops eating but remains miraculously alive and well. A nurse, sent to investigate whether she is a fraud, meets a journalist hungry for a story. Set in the Irish Midlands in the 1850s, Emma Donoghue's *The Wonder* - inspired by numerous European and North American cases of fasting girls between the 16th century and the 20th - is a psychological thriller about a child's murder threatening to happen in slow motion before our eyes. Pitting all the seductions of fundamentalism against sense and love, it is a searing examination of what nourishes us, body and soul.
