

Interior Landscapes: Horticulture and Design

A complete guide to designing, constructing, and maintaining eye-catching interior landscapes. Delving into all aspects of designing and maintaining unique interior landscapes, this colorfully illustrated book demonstrates how to realize landscapes for a variety of different interiors, from private homes to corporate office buildings, and in styles ranging from naturalistic to abstract. Photographic examples of the authors own designs and the natural materials that inspired them show how to construct an infrastructure and select the right plants for different design themes, including jungles, deserts, gardens, seasonal pieces, and sanctuaries and memorials. A plant index is also included. 130 color, 30 line drawings
