

Jack, the Young Ranchman: A Boys Adventures in the Rockies

Jack, the Young Ranchman - A Boys Adventures in the Rockies by George Bird Grinnell Far away in the west, close to the backbone of the continent, lies the sage-brush country where the happenings described in the following pages took place. The story is about real things and about real people, many of whom are alive to-day. The ranch lies in the Rocky Mountains, in a great basin, walled in by mountains on every hand, and 7,500 feet above the level of the sea. The life there was exciting. There was good hunting antelope and elk and bears and buffalo; and, far away yet near enough to be very real there were wild Indians. It is a pleasure to review those days in memory.
