

## James Mays Lego House

Who would be crazy enough to build a full-sized, fully furnished two-story house-complete with washing machine, shower, and toilet-entirely out of LEGOs? Answer: James May and his team of helpers. The story of Mays amazing house (which won the Guinness World Record for being the largest freestanding LEGO structure of all time) is told in James Mays LEGO House, a book that, like the house it describes, is wall-to-wall fun. Marvel at the dedicated teamwork required to construct the house, chuckle at accessories like a LEGO mouse and cat, and laugh out loud at Mays comical struggle with getting a good nights sleep on a LEGO bed.
