

The Panopticon: A Novel

Named one of Grantas Best of Young British Novelists Anais Hendricks, fifteen, is in the back of a police car. She is headed for the Panopticon, a home for chronic young offenders. She cant remember whats happened, but across town a policewoman lies in a coma and Anais is covered in blood. Raised in foster care from birth and moved through twenty-three placements before she even turned seven, Anais has been let down by just about every adult she has ever met. Now a counterculture outlaw, she knows that she can only rely on herself. And yet despite the parade of horrors visited upon her early life, she greets the world with the witty, fierce insight of a survivor. Anais finds a sense of belonging among the residents of the Panopticonthey form intense bonds, and she soon becomes part of an ad-hoc family. Together, they struggle against the adults that keep them confined. But when she looks up at the watchtower that looms over the residents, Anais realizes her fate: She is an anonymous part of an experiment, and she always was. Now it seems that the experiment is closing in. Now with Extra Libris material, including a readers guide and bonus content
