

Christ or Buddha; Religion Comparison Between Buddhism and Christianity

FOREWORD The following treatise was written by the author at my request, for the purpose mentioned in the first two paragraphs, and being well fitted by years of study of both Eastern and Western Religious systems to undertake such a commission, she has, in my estimation, given a most comprehensive view of the subject. She has taken a most sympathetic attitude towards the Eastern teaching as becomes an enlightened soul. Thus the spirit of this little book is not controversial in any sense, for we do not believe in trying to build up our own religion by casting dirt upon that of other people. We are just as sure that the religion of the East is perfectly suited to the people who live there as that the Christian religion is the religion for the Western people. Were the Buddha teaching today and a student from the West asked his opinion as to whether he should follow him or the Christ, I feel sure that he would direct the inquirer to The Light of the World; and this little book is therefore sent forth in the hope that it may show Western students that THEIR RELIGION IS THE CHRISTIAN, and that they should leave the Eastern religion to the Eastern people, while embracing with their whole heart and soul the religion of the Christ. Excerpt from the Christ or Buddha; Religion Comparison Between Buddhism and Christianity by Annett C. Rich; THE MYSTERY OF SEX The Western Wisdom Teaching also gives a solution of the problem of sex and its purpose. The ego itself, contrary to the generally accepted idea is bi-sexual. This duality does not manifest as sex in the inner worlds, but as Will and Imagination, akin to the Solar and Lunar forces respectively. During the epoch when the earth was united with the sun, the solar forces supplied man with all needed sustenance, and he unconsciously radiated the surplus for the purpose of propagation, but when the ego began to dwell within the

body and control it, it was necessary to use part of this creative force to build the brain and larynx, that man might be furnished with instruments of self-expression. As the physical body became upright, the dual creative force was divided, one part being directed upward to build the brain and larynx, the other was directed downward to build the procreative organs. As a result of this change, only one part of the force essential to the creation of another being was available to one individual, and the co-operation of another was necessary for propagation. Thus, man obtained brain consciousness at the cost of half of his creative power, but he gained an instrument by which he could create in the World of Thought, in the realm of music, of poetry, of art, and enter into the heritage of the worlds beauty, and if by this act, his eyes were opened to the knowledge of death, of pain, and of sorrow, they were also opened to the knowledge of his own divinity, to a knowledge of the law of sacrifice, of love and of service. Eastern Occultism teaches the apparent fact of separation of sex, but the Western Wisdom Teaching shows its purpose. THE MYSTERY OF INFANT MORTALITY The Western Wisdom Teaching also logically explains how infant mortality which has brought so much sorrow and suffering into the world, is really the merciful measure of a loving God to prevent a still greater calamity, that it has been forced by ourselves, and that there is a way open whereby we may eradicate this anomaly and save ourselves the suffering incident to the departure of those beloved rays of sunshine which alas, too frequently leave our hearth cold and desolate. On account of limited space we can only give outlines of any subject we touch upon, but all, and much more, are elucidated in the laterature of the Rosi-erucian Fellowship, notably in the Rosi-crucian Cosmo Conception.Immediately after death a panorama of the life just ended passes before the spirit. By contemplation this is etched into the desire, body, and as the soul enters the world of desires and...
