

## Piper Morgan Joins the Circus

In this charming new chapter book series, eight-year-old Piper Morgan is adjusting to a new home and all the new places and faces she meets along the way, as she and her mom look for the perfect place to plant their feet. When Piper Morgan and her mom have to move, Piper is sad to leave her friends behind, but excited for the new adventures coming her way. Her mom is looking for the perfect place for her and Piper to settle down, and dives into a series of odd jobs. Mom's first job? An assistant to the head of the Big Top Circus. And Piper is excited to learn she will be a part of The Little Explorers, a group made up of the circus workers' kids. They may be small in size, but they play a big part in the circus, as they kick-off the big elephant routine in the show. But during Piper's debut as a Little Explorer, her high kicks and pointed toes don't go quite as planned and after causing a dance disaster, she has to prove to everyone especially queen of the Little Explorers, Lexi that she belongs in the spotlight.
