

Lake Tahoes Rustic Architecture (Images of America)

Lake Tahoe is the gem of the Sierra Nevada. Those who visit this beautiful Lake of the Sky may share Mark Twains impression of the place as he camped on its shore in 1861: As it lay there with the shadows of the mountains brilliantly photographed upon its still surface I thought it must surely be the fairest picture the whole earth affords. Twains quote, from *Roughing It*, includes the trinity of Tahoes landscapesky, mountains, and lakethat people still find inspiring. This explains, in large part, why the man-made environment around the lake is predominantly rustic, a style of architecture noted for its compatibility with its surroundings through the use of natural materials in constructionlogs, stone, and wooden shinglealong with muted shades of green and brown. Through its homes, resorts, and other assorted buildings, Lake Tahoe remains the fairest picture.
