

MAR: A single family house in Luxemburg (English and German Edition)

On the occasion of their 10th anniversary, n-lab architekten, a young and dynamic architecture firm from Luxemburg, give an insight into their work for the first time. Under the direction of Frederic Nosbusch the team of around ten people mainly works on buildings in the residential and commercial sectors. MAR is their most recent and equally senior project: a one family house in Luxemburg city with an unusual aluminium facade. The first sketches were made before the firm was founded, the last details followed in 2014. It shows the characteristic style and the development of the architecture firm in the last ten years in an exemplary manner.
