

Nclex-Rn Review Cards (Card Deck)

Hundreds of sample questions are asked, one per card, in the same language and format used on the exam. Cards are grouped and tabbed by specialty -- medical-surgical, maternal-infant, pediatric, psychiatric, and fundamentals. Correct answers -- along with complete rationales for correct and incorrect responses -- appear on the back of each card, preceded by nursing process step, client needs category, and taxonomic level. A practice test lets students evaluate how much they've learned.
