

## Living in Bahia

Seen from the sea, Bahias coast still resembles what the Portuguese found 500 years ago when they first arrived. The tree-lined, white sand desert beaches and warm, clear waters continue to attract more tourists every year. Bahias regional architecture makes use of native materials, conveying a natural harmony with the local climate and nature, and is distinguished by the clear influence of the three cultures in the region (indigenous, Portuguese, and African). Bahia is one of the most interesting states in Brazil, notable for its cultural history, music, art, cuisine, and most famously, its laid-back lifestyle and architecture that have turned Bahia into a favorite destination for travellers from around the world. We have searched high and low for Bahias loveliest homes and spots, from typical fishermen huts to sophisticated modern homes. Highlights include the house of Brazilians most brilliant and prodigious singer and composer Caetano Veloso in Salvador, a treehouse by sculptor and environmentalist Frans Krajcberg an experimental house with a bamboo roof, and a house perched on a cliff built by artist Joao Calazans.
