

My Favorite Phantom

Im scared. Can I sleep in your bed?
When Professor Peyton Cache bought a big, gloomy, romantic Victorian house, he should have expected a ghost. He certainly got one, the kind that likes to float his undies around and drop slime in the stairwell for fun. But the professor cant let the rest of the faculty know hes lost his mind, so he hires a ghost hunter on the down-low. But somehow, when he booked a ghost hunter, he didnt think he was getting a live-in leggy blonde with an attitude like a Jersey gangster and a body like a pinup poster. . . Kaci Melton needs to hide out for a while, and where better to disappear than a haunted house on one of her dads ghost-hunting jobs? All shell have to do is deal with a crabby old professor for a couple days and kick out one measly ghost. Two problems: the professor is a tasty young guy with piecing blue eyes, six-pack abs, and a penchant for talking dirty. And the ghost scares the panties off her. . .actually, given the professor, maybe thats not a problem. But if she cant tell him the truth--and she cant--how is she going to get him to keep up all that wonderful sex? Especially when shes starting to kinda like him. . .
