

Ennead Profile Series 5: National Museum of American Jewish History

The book explores how architecture can help identify and narrate a museum's mission. This museum is the only major museum in the nation dedicated solely to telling the story of Jews in America. Through siting, material selection and form, the new museum articulates an accessible and inviting home for the American Jewish experience. The glass volume facing Independence Mall acts like a beacon to convey a generous welcome to people of all ethnicities and religions.
