That is because more and more people are looking towards natural and organic solutions of the ever youthful look or getting rid of skin diseases, wrinkles, pimples, or just looking squeaky clean and fresh. The instinctive nature of human beings to hold on to their youth, and the smooth attractive skin of that time is one of the reasons why so many people are looking for alternatives, which supposedly give them a fresh lease on looking young and looking attractive. That is the reason why you see so many brands in the market today, marketing products with supposedly exotic ingredients or secret ingredients. This is the oldest marketing stunt and wheeze, which has been practiced down the ages and it is going to continue in the year 5000. If you stood on a market street corner in ancient Egypt, there would be some pattering show man, talking all about a magic cream, which he had learned from his Gypsy ancestors who were wise good witches. They used a secret ingredient, which were the rays of the moon, collected on a full moons night, with a golden spoon. And as the full moon on that special night was in

her full bloom of youth and beauty, so would everyone who would pay 10 obols would get the secret of the gods. Also, he would give anyone a powerful magical elixir, which would keep him looking young and attractive for as long as he wished.
