

NCLEX-RN® New-Format Questions (Point (Lippincott Williams & Wilkins))

NCLEX-RN New-Format Questions, Third Edition provides 350 samples of the five types of alternate-format questions: multiple-response multiple-choice questions, fill-in-the-blank calculation questions, exhibit/chart questions, drag-and-drop questions, and hot spot questions in the style and format used on the current NCLEX-RN test plan. Each question contains a critical thinking test taking strategy, a reference citation, and the applicable integrative process. The book uses the popular two-column format with questions in the left column and answers with rationales in the right column. Review questions cover fundamental nursing concepts and skills, medical-surgical nursing, maternal-neonatal nursing, pediatric nursing, and psychiatric and mental health nursing. This edition also includes two brand-new comprehensive tests, each containing 75 questions. A companion Website will include all questions in the book plus an NCLEX tutorial.
