

Netherworld Dreams

Awakened by a most disturbing nightmare, 9-year-old Dante Alighieri recalls his first journey to the underworld. Little did he know he would return 26 years later. Narrated by young Dante, Netherworld Dreams chronicles the boys dark journey through the nine circles of hell. As both a parody of and tribute to The Inferno, Netherworld Dreams follows the same path as that in the original. However, imagine how hell would look like from the perspective of a child? Are the true horrors we fear only that from our dreams? Or are they more real than we could ever imagine? Are there consequences for our actions that transcend our earthly lives? Little Dante, in his poetic narrative, reveals The Inferno as you have never seen quite like this before.
