

Masonic Parliamentary Law: Or Parliamentary Law Applied to the Government of Masonic Bodies, a Guide for the Transaction of Business in Lodges, Chapters, Councils, and Commanderies (Classic Reprint)

Digest of Parliamentary Law, has remarked that it would be well for persons presiding at meetings of any description to make themselves familiar with the rules of Parliament in regard to questions and amendments which have been tested by long experience, and are found as simple and efficient in practice, as they are logical in principle. Much experience in conducting the business of Masonic bodies, or in seeing it conducted by others, has convinced me that a treatise which should, in perspicuous language, prescribe the rules for the government of Lodges, Chapters, or any other assemblies of Masons in their Masonic character, could not fail, if properly executed, to be of service to the Craft. It is evident that when one is, for the first time, called to preside over a Lodge of reemasons, he must come to the performance of that important duty, either with no knowledge whatever of the rules of order that govern the proceedings of deliberative bodies, or with a familiarity with those rules only that are exclusively derived from the ordinary parliamentary law. From either of these conditions, errors must inevitably arise. (Typographical errors above are due to OCR software and do not occur in the book.)
