

Red Sox 2013: Naked Came the Lineup

Boston Strong met full approval with the Red Sox in this book that documents every significant moment during a season that took the remnants of 2012's disaster squad, turning them into an amazing bearded team of destiny. Following the team and players from spring training to the World Series, this book is a must-have for fans who want the sweet and sour memories, compiled for future reference and nostalgia, including some of David Ortiz's best and worst days.
