

Sports Training Notebook: Badminton: For Coaching Instruction On All Levels Of Sport

From LayFlat Sketchbooks, the Sports Training Notebook Series was created for the Coaching/Training Classroom, by request from high schools across the country. Each title features a diagram of the playing field, drawn to spec, with note taking pages for each diagram. Since the inception of this book line in 2010, hundreds of national high school and college sport classrooms have gained the benefit of moving players notes from the glass table top to the printed page for continued study. To view and select titles from the complete Sports Training Notebooks product line (all available through Amazon), please visit www.SportsTrainingNotebooks.com.
