

Ralestone Luck

Rupurt Raleston and his siblings, Richanda and Valerius, return to their ancestral home, Pirates Haven. It is the only thing they have left and they believe that there are hidden treasures that will save them from destitution. Amongst these treasures is rumored to include an ancestral sword, The Luck, which will return them to their previous glory. But as they get closer to finding this hidden treasure, another man has come to claim the ancestral home. A man who says that he is the rightful heir from another branch of the family. Rupurt, Richanda and Valerius must now find proof of their ownership or lose everything -- Pirates Haven . . . and any chance they may have for the future. Andre Norton wrote more than a hundred novels. She was noted for having found success through writing young adult and children's stories. She was the first woman to have been awarded Gandalf Grand Master of Fantasy and the Nebula Grand Master Awards.
