

# Stirling's Quarters at Valley Forge National Historical Park Historic Structure Report

The following tasks are addressed in detail in the HSR: 1. Archival Research to retrieve information related to the significance and development history of the building and site. 2. Architectural investigations to retrieve and document physical evidence of the construction chronology of the building, to assess existing conditions and to formulate the scope of required preservation and conservation work. 3. Structural investigations to assess and document the existing condition of the buildings structural components, and to assess the capacity of those systems to accommodate the proposed use. 4. Statement of recommended treatment philosophy consistent with the appropriate period of significance and proposed use for the buildings. 5. Statement of recommended treatment, use(s) and interpretation of the property. 6. Statement of treatment priorities.
