

## Womens Suffrage: The 20th Century (Building Fluency Through Readers Theater)

Act out the story of two women, Alice and Lucy, from the National American Womens Suffrage Association (NAWSA). The group is trying to get women the right to vote, but they are moving too slowly! Alice and Lucy resort to their own methods including instigating radical demonstrations. While their efforts cause them trouble, children will learn how women did eventually obtain the right to vote. This script includes roles written at various reading levels, allowing teachers to implement differentiation and English language learner strategies into instruction. This feature allows teachers to assign each role based on their students individual reading levels, encouraging everyone to get involved in the same activity. Whether students are struggling or proficient readers, they can all gain confidence in their reading fluency and feel successful. By performing together, students will also practice interacting cooperatively, reading aloud, and using expressive voices and gestures while storytelling. With an accompanying poem and song to give readers additional fluency practice, this script is a dynamic resource sure to engage a classroom of varied readers.
