Excerpt from Report of the Commission of Inquiry: As to the Ontario Agricultural College and Experimental Farm 1893 Whereas, in and by Chapter seventeen of the Revised Statutes of Our Province of Ontario, entitled, An Act respecting Inquiries concerning Public Matters, it is enacted that whenever the Lieutenant-Governor of Our said Province in Council deems it expedient to cause inquiry to be made into and concerning any matter connected with the good Government of Our said Province, or the conduct of any part of the public business thereof, or the administration of justice therein, and such enquiry is not regulated by any special law, the Lieutenant-Governor may, by the Commission in the case, confer upon the Commissioners or persons by whom such inquiry is to be conducted, the power of summoning before them any party or witnesses, and of requiring them to give evidence upon oath, orally or in writing (or on solemn affirmation if they be parties entitled to affirm in civil matters), and to produce such documents and things as such Commissioners deem requisite to the full investigation of the matters into which they are appointed to examine, and that the Commissioners shall then have the same power to enforce the attendance of such witnesses, and to compel them to give evidence, and to compel them to produce documents and things, as is vested in any Court in civil cases; but that no party or witness shall be compelled to answer any question by his answer to which he might render himself liable to criminal prosecution. And whereas it has been made to appear to the Executive Government of Our said Province that it is expedient to inquire into the want of harmony said to prevail in the Agricultural College and Experimental Farm at the City of Guelph amongst the staff, officers and others connected with the said institution, or some

of them, and into the conduct of said persons so far as the Commissioners may deem the interests of the institution to require.
