

## DVD Studio Pro for Mac OS X: Visual QuickPro Guide

Create and burn your own professional-quality DVDs with DVD Studio Pro 2, the most comprehensive and affordable DVD Studio Pro book on the market. DVD Studio Pro 2 for Mac OS X: Visual QuickPro Guide covers the secrets of DVD creation, including AC3 audio and MPEG video encoding, advanced interactivity through scripting, subtitling, and more. Task-based reference with hundreds of screenshots makes it easy for video professionals to get things done right, right from the beginning. Apple has made waves with its revolutionary digital-video-editing packages, such as iMovie, Final Cut Express, and Final Cut Pro. With the release of DVD Studio Pro 2, Apple has completed the digital video picture by providing a full-featured, reasonably priced DVD-authoring program that lets you get your videos off the computer and onto televisions. DVD Studio Pro 2 is a completely new DVD-authoring product, built from the ground up to take advantage of OS X's Unix base to provide powerful processing and multitasking abilities. Version 2 brings you a breakthrough user interface packed with innovative features that redefine professional DVD authoring, timeline-based track editor, enhanced menu tools that now let you add text and composite video buttons right in DVD Studio Pro, integrated MPEG-2 encoding and new, professionally designed templates. DVD Studio Pro 2 for Mac OS X: Visual QuickPro Guide is ideal for anybody who wants to output their video projects to DVD discs, including independent filmmakers, video professionals, corporate trainers, event videographers, and proud parents everywhere! Each task is broken down into concise step-by-step instructions, illustrated with informative screenshots and plenty of time-tested tips and tricks to help you make perfect, pro-caliber DVDs with

interactivity far surpassing anything  
Hollywood has to offer.
