

# Blood and Roses: One Family's Struggle and Triumph During the Tumultuous Wars of the Roses

The Wars of the Roses turned England upside down. Between 1455 and 1485 four kings lost their thrones, more than forty noblemen lost their lives on the battlefield or their heads on the block, and thousands of the men who followed them met violent deaths. Yet almost nothing is known about the thoughts and feelings of the people who lived through this bloody conflict, whether kind of noble, landowner or peasant. Almost nothing, but not quite. As they made their way in a disintegrating world, a Norfolk family called the Pastons were writing letters - about politics, about business, about shopping, about love and about each other. Using these letters, the oldest surviving family correspondence in English, Helen Castor traces the extraordinary history of the Paston family across three generations. *Blood & Roses* tells the dramatic, moving and intensely human story of how one family survived one of the most tempestuous periods in English history.
