Dreaming of a city with flying horses was one thing.... But coming face to face with someone she knew to be dead - that was something else again. Georgia would love nothing more than to raise horses every day and avoid her annoying stepbrother at all costs. But she could never have guessed that a tiny, antique winged horse figurine would be the key to her escape to another world and another time. When Georgia arrives in a 16th-century city called Remora, she is plunged into a dangerous and treacherous world of horse-racing, family honor, and deadly rivalry. And there, as a new Stravagante, Georgia will have a dramatic and extraordinary role to play....
