

Roman life in the days of Cicero

This book does not claim to be a life of Cicero or a history of the last days of the Roman Republic. Still less does it pretend to come into comparison with such a work as Bekkers Gallus, in which on a slender thread of narrative is hung a vast amount of facts relating to the social life of the Romans. I have tried to group round the central figure of Cicero various sketches of men and manners, and so to give my readers some idea of what life actually was in Rome, and the provinces of Rome, during the first six decades to speak roughly of the first century B.C. I speak of Cicero as the central figure, not as judging him to be the most important man of the time, but because it is from him, from his speeches and letters, that we chiefly derive the information of which I have here made use.
