

Safe Young Drivers: A Guide for Parents and Teens

Teenagers are by far the most dangerous age group on the road: a 16-year-old is 12 times as likely as older drivers to die in a crash as a single occupant; put two young teens in a vehicle, and the odds of death and injury nearly double. Safe Young Drivers helps to address this enormous problem. It is an indispensable guide for teaching teens to drive. Intended for parents and teens to use together, it addresses parental issues such as how to choose a car for your teen, and provides teens with simple instruction and important tips to remember. With simple graphics, a complete index, and a section called Some ABCs for the Road, Safe Young Drivers is a valuable tool for all new drivers and their teachers.
