

Sams Teach Yourself Red Hat Linux in 24 Hours

Sams Teach Yourself Red Hat Linux in 24 Hours provides new users a tutorial approach to learning how to use Linux -- and it provides readers who are already familiar with Linux insights into the features of the latest version of Red Hat Linux -- the most popular distribution among Linux users in the United States and overseas. The book covers all the most important topics for the reader who wants to get Red Hat Linux up and running and productive as quickly as possible. Written by Judith Samson, the principal of a Linux consulting company, the book assumes no prior knowledge of either Linux or the Red Hat distribution. Everything is explained using simple terms in a careful, step-by-step manner. The book's CD includes a complete Red Hat Linux starter kit, including the most recent version of the Red Hat distribution.
