

## Future Heritage UK: 2008 and Beyond

This is one of a series of publications that Heritage Development has produced to provide key market intelligence to suppliers in the museum and heritage industry. This volume focuses on the over ?9 billion worth of new projects under development in United Kingdom scheduled for completion between 2008 and 2016. From small-scale visitor centre refurbishments to major multi-million pound new-build attractions, they are all included here. Each entry includes a summary of each project, its estimated value, its timescale and contact details of each client and of any contractors (such as architects or designers) appointed.
