

Springs Sprung

Mother Earth rouses her daughters -- March, April, and May. You must wake the world to start a new day. But sisters March, April, and May begin quarreling as soon as they awake from their long winters sleep. They are so busy competing with each other that they have forgotten that its their job to make the world blossom into springtime. Can Mother Earth soothe her daughters and stop their silly squabbling? Will spring ever arrive? Lynn Plourdes bouncy text and Greg Couchs luminous illustrations continue the story of Mother Earth and her children. Families everywhere will herald the arrival of spring!
